DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1,3-9 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In Claim 1, line 9 and in Claim 11, line 7, there is the alternative conjunction "or" appearing after the semicolon and apparently used to recite an alternative structure of the second module. However, an alternative recitation is indefinite here and it is unclear if this structure is positively part of the second module recited for example in line 4 of Claim 1, and required along with the first module. It appears that applicant intends this to be "and" to include structure of the second module. But, it is not clear from the claim recitation used here. In lines 9-10, confusion is enhanced because there is again recited "a first metal...layer", where there is confusion with that recited in lines 2-3. It should be clear that the second module contains all of the structure now added to these claims (as in the version with markings showing changes made). Compare with the recitation in lines 12 and 14, for example in Claim 1, where the second module is clearly recited as having the associated structure.

Claim 11 is further indefinite because in line 10, the language "the second module" lacks a proper antecedent basis. The additional structure recited in lines 7-10 is not clearly associated with the "second module".

In view of an alternative recitation of the second module, it is uncertain if the second module structure is to be positively recited and interrelated with the first module structure. Therefore, the claims are not rejected with the prior art of record.

Allowable Subject Matter

2. The claims would be allowable if the structure of the second module is clearly recited as included with the first module structure. The alternative language (i.e., "or") does not include the second module structure in a clear and concise manner, and the claims cannot be allowed.

Response to Arguments

3. Applicant's arguments with respect to claims of record have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
